**Guy has built his reputation on finding unexpected, progressive and valuable answers to complex problems.**

His 25+ years of experience in the design, communication and delivery of architectural solutions has been fuelled by an energetic curiosity and a love for the discipline that offers something new to learn every day.

Over the course of his career, he has worked on and helped to secure the future of a wide range of buildings and places, and this variety of work has led to a multi-specialism approach.

Guy's experience of working within a multi-disciplinary organisation has provided insight and appreciation into the pressures and aspirations of other members of a project team. Understanding that architecture needs to respond to these pressures has nurtured a creative, responsive and flexible approach to finding solutions.

A highlight of his career was receiving a commendation at the Cambridge Design and Construction Awards for the refurbishment of Bidwell House. This recognition was from Cambridge City Council and the Cambridge Forum for the Construction Industry.

## Key relevant project experience

### **Hughes Hall, Cambridge – Learning Resource Centre**

This was a new-build project for an established College client in an established College client in a city centre Conservation Area. Planning Permission was won on appeal and the £1.3m project completed on project.

### **Hughes Hall, Cambridge – Fenners Building**

73 Student Rooms and flats with ancillary accommodation Dining Hall, Kitchen/Servery, Senior Common Room and President's Flat were completed in a £7m new-build development adjacent to the University Cricket Ground.

### **Extension to the Churchill College Archive to House the Thatcher Papers**

Extension to the Churchill College Archive to house the Thatcher Papers.

Densely packed mobile racking is arranged on four floors of storage accommodation within a building envelope that provides exceptional levels of environmental stability and security. This £1.9m project was successfully integrated into a sensitive Grade II\* Listed context.

### **Hall Barn Estate – Bakery Court, London End, Beaconsfield**

Architectural Design and Contract Administration services for a mixed-use development including retail, restaurant, office and residential accommodation within an existing historic streetscape. A combination of conversion and extension of Grade II Listed buildings and the provision of complementary new-build elements delivering a high-quality piece of townscape improving and enhancing the character of this part of Beaconsfield 'Old Town' to create a viable, commercial development for a long-term client.

### **Cambridge Consultants Ltd – Office and Laboratories**

This £11m building extends an existing facility by 3,800 sq m and houses software and life sciences labs for a multi-disciplinary business with an international reputation.

### **Celltech Chriosciences Ltd – New Headquarters Building**

This £17.5m project provided chemistry and pharmaceutical labs, offices and service accommodation including a staff cafeteria and library on an out-of-town business park.

### **Gonville & Caius College – Harvey Court Refurbishment**

This comprehensive re-organisation and refurbishment of a Grade II\* Listed College residence delivered 100 fully updated and viable student rooms.
