Tom Drewett

BSc (Hons) PhD MICFor

Senior Forestry Consultant, Scotland

07976 215949
tom.drewett@bidwells.co.uk

Tom brings a passion for British forestry and the rural landscape to his role within our sector-leading forestry team.

From a young age Tom has been fascinated by woodlands and timber products. Now, as a professional working in the forestry sector, he brings that enthusiasm to deliver maximum results for his clients through forest management, property sales, timber sales, woodland creation and access negotiation.

In a role that is varied both professionally and geographically, Tom thrives on the diversity of the job and is involved with a broad forestry portfolio encompassing infrastructure, energy and renewables, sales and acquisition as well as day-to-day forest management.

With experience in the public and private sector, Tom understands the importance of ensuring the best returns for his clients. From scoping bare land with planting potential to openly tendering timber sales, his expertise in practical management of forest environments is invaluable.

A chartered forester, Tom works with a wide range of clients in sales and management and understands the sector's many influencing factors. His attention to detail, organisational skills and approachable manner are complimented by his strong work ethic and forestry qualifications.

Key relevant project experience

Harvesting of sensitive sites; planning and installation of sensitive infrastructure to facilitate harvesting and extraction.

Creation of timber sale tenders and planting tenders, which maximise income and efficiency.
