**With a specialism in infrastructure projects in Norfolk and Suffolk, Christopher provides insightful expertise when advising his clients.**

Having spent his whole career in East Anglia, Christopher works with a large portfolio of windfarms affecting the Norfolk and Suffolk coast. His knowledge provides Christopher with first-class insight and an ability to anticipate his clients' needs.

Advising on Estate Management and Infrastructure projects, Christopher builds strong and long-lasting relationships with all his clients, ensuring he provides proactive and thorough advice on managing their assets.

Working in an area of the country he loves, Christopher thrives off the blend of the clients he advises and the different projects he gets involved in.

The Hornsea Project, Three Offshore Windfarm for Orsted and both the East Anglia One North and East Anglia Two Windfarms for Scottish Power Renewables are driving forward the use of sustainable power in the East of England, and an essential move in the Land and Estates industry.

#### Key relevant project experience

- Acting on behalf of Elf Exploration UK Plc at Bacton for the SEAL and SILK pipeline projects.
- Acting as a land agent at Bacton for the Balgzand-Bacton pipeline for The BBL Company.
- Involved as an agent for EDF Energy dealing with compensation claims, particularly arising from the construction of 132 kv lines, negotiations and wayleaving for underground cabling and site - acquisitions.
- Worked as an agent for landowners dealing with compensation issues relating to the pipe laying operations of Anglian Water Services Limited.
