

Paul Rolph

RIBA, Member of ARB

Architect, Building Consultancy

07976 579134

paul.rolph@bidwells.co.uk

An inquisitive mind with an awareness for all things green, Paul brings knowledge as well as creative flare to the table.

Always striving to create a project that ticks all your boxes, you can rely on Paul to exhaust every solution, as well as be the person to bring fig rolls to a meeting. He isn't just technically skilled but also incredibly warm hearted.

Incredibly methodical in his approach, Paul likes to get under the skin of your project as the earliest opportunity. Doing things step-by-step, without cutting corners, ensures your project is as compliant and well thought out as possible.

As well as the people he works with, Paul loves the variety of his job and the fact he is always learning, testing and challenging himself. He could be working on a barn conversion one week, designing and refurbishing an office the next and even creating a new laboratory.

Paul's first-hand knowledge and experience of designing accessible buildings to help improve and promote equality, diversity and inclusion for all is something he is incredibly passionate about. He is also a self-proclaimed perfectionist who doesn't stop until you and he are satisfied, whilst always having a smile on his face.

Key relevant project experience

Trinity College

Unit 330 Cambridge Science Park extension and refurbishment.

Papworth Trust

Macfarlane Grieve House Refurbishment plus 2 new detached fully wheelchair accessible care home bungalows utilising sustainable technologies including air source heat pumps and PV panels.

High Street, Trumpington

Prepared the working drawings and construction details for the new High Street Trumpington building (that our colleagues from Stonecross moved into) with timber cladding next to the old thatched cottage.

Producing working drawings for projects

Hudson Close (proposed 7no. new Apartments for Charles Pemberton), Spalding Hostel (Refurbishment for King's College) and 59 Hills Road – 1 Station Road (Refurbishment and Internal Alterations for Jesus College).
