

Tim Hyde

BA (Hons) Dip ARCH ARB RIBA

Project Architect, Building Consultancy

07976 592874

tim.hyde@bidwells.co.uk

A hard grafter in and out of work, Tim and has both design and practical experience of how buildings are pieced together.

Having built his own house extension and renovated it, Tim isn't just creative but knowledgeable of the intricacies of building works. He not only has technical know-how of what is likely to pass planning but is able to advise his clients on what is practical and achievable within their budget.

Always keen to avoid a generic solution, Tim works hard to really understand his clients' ambitions so that he can provide ideas and designs for something that really works for them.

From refurbishing Grade I listed accommodation for Trinity College in Cambridge, designing and developing a multi-use site in Beaconsfield, to converting and extending a commercial warehouse into office accommodation, Tim can turn his hand to a variety of buildings and sectors and can tackle each challenge with confidence with over 15 years' experience under his belt.

He loves the variety of his job and the ever-evolving industry with the new technology and materials available. He also loves the fact that his clients put a huge amount of trust in him to deliver what they want and takes immense pleasure when everything comes together.

Key relevant project experience

Woodlands Farm

New 12,000 sq ft curtilage Listed Office Block in Rural Beaconsfield. This project drew inspiration from the model farm which stood on the site around 100 years previous. Although a New Build, materials such as heritage brick blend, flint and timber helped this large building fit effortlessly into its surroundings.

Freemantle Farm, North Oakley, Hampshire

Conversion of Grade II Listed barn and an adjacent curtilage Listed building together with the refurbishment and repair of the existing parlour building. In addition, a new single storey timber frame garage and workshop building is proposed to re-create the historic 'u' shape of the farmstead.

Viola House, Cambridge

Infill commercial 4000sqft office block development, mixing modern and traditional materials to deliver a modern high performing building whilst keeping a rural look and feel.

Trinity College master's lodge

Refurbishment of this historical master's lodge required collaboration from the college and heritage teams to help this much-needed upgrade be successful whilst preserving the historical asset within a tight time frame.
